Wardha Road, Nagpur

Affiliated to R. T. M. Nagpur University, Nagpur

Accredited 'A' Grade by NAAC

## **Institutional Distinctiveness**

## Institutional Distinctiveness

Name - Services during Crisis

### Background

The College aims to strive towards upliftment and welfare of the poor and downtrodden class. In March 2020, lockdown was declared suddenly and the offline classes had to be suspended. The havoc created by the pandemic caused health and traumatic psychological problems amongst the students. Their attention on academics got wavered. In this kind of a situation of emotional turmoil it became absolutely necessary to provide the support and appropriate mentoring for the sake of ensuring their composure and stability of mind. Some of the college teachers had also fallen victim to Corona.

### Activities undertaken in the session 2021-2022

1. Students Mentoring during Lockdown - In view of this situation an additional mentor was appointed for the students to look after the psychological needs of the students who were living under constant fear. The teachers appointed as mentors were the ones residing near the college. Most of the students came from these areas. The students were asked to contact the teacher residing close to their place of residence in case of emergency. Regular mentoring of students has been done through interactions and appeals/letters by the university/college to remain calm and stress free.
2. Covid-19 prevention vaccination camp - The College Health Care Committee and NSS organized Covid-19 prevention vaccination camp in association with Health Department of Nagpur Municipal Corporation on 21st September, 2021 and 1st November, 2021. Students and their family members and people residing in nearby areas were invited to get vaccinated. 77 people were vaccinated during the drives.
